## U. S. IMMIGRATION AGENT HERE

Looking Into Condition of Foreign  
Born Residents.

A gentleman named R. Giorgio, who is connected with United States Immigration Commission, arrived in Jackson on Sunday. His business is to gather statistics concerning the condition of residents of Italian nativity. Other agents will probably be here to examine into the affairs of people of other nationalities. The object of this investigation is to report to the authorities of Washington the facts, and from the statistics so gathered congress will be better prepared to act intelligently upon the various immigration bills that are pending. Some change in the immigration laws is bound to be made. Four different propositions have been made, as follows:

1st. To increase the head tax upon all foreigners landing in the United States from \$1 to \$20.  
2d. To raise the head tax to \$10.  
3d. To limit the number of immigrants from each foreign country.

4th. To stop the influx of foreigners altogether for a period of years.  
Now to gain information that will better enable congress to act intelligently upon the various plans, an immigration commission was formed two years ago, to gather statistics not only in this county but in the countries from whence the aliens came. The past two years has been spent by commissioners in European countries, getting information showing the conditions in their native land of the classes which supply most of our foreign born population. Now the agents are out in force in all the states of the Union getting information of the foreigners in the United States. The object is to show how the conditions here compares with the conditions they left, so as to judge how much better off they are here financially, socially and otherwise, than in their native land. The questions embrace the whole history of the individual. But really the object is not to pry into the private affairs of citizens, but to get at the facts, and in the end better the conditions of the alien population by wise national legislation.

For the purposes of this commission the country is divided into three districts one with headquarters at San Francisco, embracing 11 states and territories, another at Chicago, and the third at New York.

Mr Giorgio expects it will require three months to finish his work in Amador county. His headquarters will be at the National hotel, Jackson, during his stay here. The questions are very numerous—so numerous that from five to six persons is the limit of a day's work. Some not understanding the object of the investigations, are disinclined to answer, believing that it is too much like prying into private and family affairs. Such is not the aim, and it is better far to answer the queries fully and unreservedly than to quibble about them. It is really in the interest of the foreign residents that this commission has been organized.

Cheapest accident insurance—Dr. Thomas' Electric Oil. Stops the pain and heals the wound. All druggists sell it.

## Important Sale.

Under the judgment secured by the Union Trust Company of San Francisco, for the sum of \$423,217.40, the property of the Ione and Eastern Railroad will be offered for sale by the sheriff in front of the court house tomorrow morning, August 25, at 10 o'clock. The amount of the judgment represents the bonds outstanding, and interest. It is expected that the road will pass into other hands.

## Phear's Express.

Ring up Sam Phear for prompt delivery of trunks, baggage and express packages. Rates reasonable. Leave orders with P. L. Cassinelli, phone Main 35; and Express office, Main 34; residence Black 374.

## Active at 87.

This would be unusual news if men and women would keep themselves free from rheumatism and all aches and pains as well as keeping their muscles and joints limber with Ballard's Snow Liniment. Sold by Rubser's City Pharmacy.

## THE NEW NATURALIZATION LAWS

A Big Reduction in the Number of Applicants for Citizenship.

The stringent naturalization laws now in force, requiring all applications to be heard in the presence of a federal district attorney, and a rigid examination into the qualifications of the applicant for citizenship; has had a decided effect in reducing the number of naturalizations. It seems many of those of foreign birth, who, as far as the time they have lived in this county is concerned, are entitled to become citizens, are loath to undergo the ordeal. This is especially true of those who but slightly acquainted with the English language. The trials of others who have failed to pass a successful examination have been noised among them, leading them to shrink from the trial. They prefer to forego the honor of citizenship a few years longer than apply while the outcome is in any way dubious.

This is a presidential year, and no one can now be admitted to citizenship with the privilege of voting at the election to be held in November. Usually just prior to the closing of the period of naturalization in an election year, a long procession of aliens have filed into court and obtained their final papers. We probably have today in Amador county a larger number of foreign-born residents unannaturalized than ever before. Only three have received final papers, after examination, since the beginning of this year. They are Nick Sky, a native of Austria, Conrad Hunterman, native of Germany, and William T. Brewer, native of England.

There are only three applications pending, namely, Frank Benedetto, native of Italy, and a resident of Jackson; Frank Milosovich, native of Austria, and residing in Jackson, and Giacomo Isola, native of Italy, and living in Amador City. These are set for hearing in November.

There is also a notable falling off in the number of those making declaration of intention to become citizens. Last year up to this time there were 40 declarations. This year the number is 34 as follows:

Premo Delantoni, Italy; Macksin Chorovich, Austria; Marco Delich, Austria; Marko Chorovich, Austria; Stefano Canata, Italy; John Borjovich, Montenegro; Guro Troyan, Austria; Peter Vailovich, Austria; Henry Trevana, England; Lorenzo Leone, Italy; Luigi Ghingaro, Italy; Onas Lendahl, Sweden; Martin Poulson, Denmark; Cintonio Franco, Italy; Richard E. Rule, England; George Coon, England; Giovanni Ambrogio, Italy; Mak Kurich, Austria; Mitar Bumba, Austria; Sidney Goard, England; Luka Boskovich, Austria; Vittorio Mondani, Italy; Giovanni Stralla, Italy; John Vugisteka, Belgium; Carlo Forni, Italy; Milan Radonovich, Austria; Serafino Barbergiate, Italy; Obron Boskovich, Austria; Kristo Radovich, Austria; Tripo Vukovich, Austria; Agostino Maffei, Italy.

PIONEER FLOUR always has been and still is the best.

## Ball Game Sunday.

The Sutter Creek baseball team came over last Sunday to play the Jackson boys fully expecting to win, because of the fact that Jackson was short of men, but they were doomed to disappointment. For seven innings they had everything their own way, but then Jackson tied the score and in the last of the ninth succeeded in getting one more, which was the deciding point. The visiting team was first at the bat and in that inning got the only run they made during the game. The score at the end stood 2 to 1 in favor of Jackson. Jackson team was short five men. The pitcher's box was filled by Ralph Miller of Ione, Sockey Ardito being in the mountains; Cummings of Electra taking Thomas' place on first base, while Des Love, played second; Brown of Ione on third and Woolfork of Electra, in right field, were all new men. Fraser pitched for Sutter Creek and struck out six or seven men, while Miller retired fifteen.

## What is Best for Indigestion?

Mr A. Robinson of Drumquinn, Ontario, has been troubled for years with indigestion and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." It troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price 25 cents. Samples free at Jackson's drug store, Spagnoli, prop.

## THE KREVO MURDER CASE

Kate Krevo Liberated.

Kate Krevo, the 17 year old girl, sister of Elia Krevo, who was found dead—shot in the head—at his home near the Argonaut mine three weeks ago, was liberated the end of last week. She was at first kept under surveillance at the Globe hotel, and thereafter provided with quarters in county jail. The curtailment of her liberty failed to turn her tongue loose on the question of her brother's death. No light whatever was thrown upon that crime. So after a week in jail, she was liberated; there being no charge against her, and not sufficient evidence to warrant a charge being made against her. She went to Dragolovich's boarding house near the Catholic cemetery, where her two brothers, George and Marco, have been living since they left the house which was the scene of the homicide.

The girl is required to report in person at the sheriff's office every afternoon, and has faithfully complied with the request so far. The last day or so that she was kept in the jail—or rather in a room fitted up for her reception—she set up a sort of Austrian wail. It was intended to convey the idea that she was in great distress on account of her confinement, and those on the outside hearing it were apt to believe that the girl was in reality crying. The officers say it was nothing of the kind; it was an artificial wail gotten up for the occasion. There was no real emotion about it.

The officers completely failed to get any information about the murder from this girl. Throughout the ordeal of two weeks' sweating process, she was caught in a number of falsehoods. These did not phase her, and when cornered she would slip out of the dilemma by remarking, "Well, I may have been mistaken." "How could I know, I was excited." She never lost her nerve, or broke down, never displayed any feeling, but told them "you may keep me here till I die, I can tell you no more."

She is uneducated; cannot read or write in any language. The registered letter that she sent to her fellow in Sacramento was written by Nick Churich, who is the nearest neighbor to the scene of the tragedy. He admitted writing it at her request and at her dictation. While there is nothing of an incriminating nature in it, she decline to reveal the real name of the writer, and endeavored to lead the officers astray in that respect.

She gives a very improbable story of her actions at the time of the shooting. She says she was in bed at the time, and when she heard the shot she got up and dressed herself completely, excepting lacing her shoes. She then went into the room nearest to where her brother slept outside, and stepped out of the window, and saw blood on her brother's face. (There was a streak of blood that came from the nostrils, as well as the more copious flow that issued from the bullet wound, and formed a small pool under the victim's head.) She says she went near the body and called, "Elia, who killed you." She then re-entered the room through the window, and left the house, going down to the dwelling of Nick Churich. She appeared as calm and emotionless when she entered, although holding both hands up to her face as if weeping. She said, "Some one has killed my brother." She claimed that she laced her shoes after she reached Churich's, but Churich has no recollection of such a thing.

After coming to town and telling the occurrence at Nettle's store, W. J. Nettle took her to his house on Broadway. In less than an hour Sheriff Gregory called for her to accompany him to the scene of the murder. She was sound asleep, as though nothing had happened, and had to be awakened. This is remarkable under the circumstances. Whether innocent or guilty of any complicity in the crime, the conduct is inexplicable. It shows the extraordinary character of this girl. If the facts of the murder are looked up in this girl's breast alone, it is very improbable that the tragedy will ever be solved.

The girl is an enigma, as well as the solution of the crime. While untutored, she is by no means deficient in intellect. She is possessed of a shrewdness far beyond her years. The pistol has not been recovered. The bed of the ditch running from

## MINING NOTES.

Defender.—Superintendent Joyce has been considering the installation of a gasoline engine with which to operate the ten stamp mill at the Defender mine. He has made some investigations with that object in view. Nothing definite has been decided upon as yet. At present the mill is operated by water power, but the pressure is low, so in the summer time when the water supply is limited there is hardly enough power to turn the wheels. In the winter and spring this trouble is not encountered. The gasoline engine would be used only when the supply of water becomes low.

Bright.—Work was commenced the latter part of last week, in unwatering this mine, for the purpose of enabling parties who are thinking of investing therein to inspect the property and take samples of the ore. The shaft is about 100 feet deep, and the work of taking out the water is not a serious undertaking. The capitalists at whose instance this work is being done, are interested in the Silver Peak mine at Blair, Nevada, where the company is operating 100 stamps on a large body of low grade ore. Andrew Noce, formerly foreman of the Oneida, is superintendent, and he was instrumental in getting the parties to look into the proposition of the Bright property. The Bright mine is a part of the estate of S. W. Bright, now in process of probate. It is located in the center of the Bright ranch and within the incorporated limits of Jackson. It has been lying idle for a number of years. Indeed, no real well-directed effort has ever been made to develop it on a scale of magnitude in keeping with the size and character of the ore body. It is on the east vein of the mother lode, the same vein that is met with in the Zeila. It is a low grade ore, believed to be of equal grade as the Zeila. As the vein is large, judging from the outcropping and the developments so far made, it is believed that a good margin of profit could be made by handling it with a big milling equipment. It has been held at \$50,000, including the entire ranch of about 200 acres. The Silver Peak parties were over from Angels Monday in an automobile to look at the mine. It is sincerely to be hoped that satisfactory arrangements will be made for its disposal. There is no mining proposition that holds out more hope of a revival of business in Jackson, and the starting of a genuine mining boom than the development of a paying property in the Bright claim. It would have to be worked on a large scale, and that would mean an addition of several hundred men to our population. The

Valparaiso.—It is pleasing to report that this pocket mine has been gladdening the hearts of the stockholders lately, by surrendering liberally of ore heavily charged with the yellow metal. A vein of the black metal characteristic of that region has been followed for considerable distance. It carries high values. Sometimes it pinches to very small dimensions, and again widens out to gratifying proportions. For several days they went to work and panned up in a hand mortar about 400 pounds of this rich rock. The yield was \$1100, or nearly \$3 per pound. Of course, it was picked ore, the richest they could get, that was subjected to this treatment, the object being to secure means to pay off some outstanding debts. Over one hundred tons of similar ore has collected on the dump, awaiting milling. There is a one stamp mill belonging to the property, capable of crushing from three to four tons per day, but this cannot be operated owing to lack of water for power and battery purposes. current talk is that the property is offered on a bonding proposition at \$60,000, with the privilege of thoroughly prospecting the mine; \$250 to be paid monthly, which will go toward the purchase price if the parties decide to take. There is no money to be paid down. It is believed the capitalists will accept the terms and proceed with the development of the claim.

## For Sale.

## Raines—Wrigglesworth Wedding.

Tuesday morning Thomas J. Raines of Lodi, and Miss Cora Wrigglesworth were married at the home of the bride in Jackson by the Rev. T. H. Nicholas. The wedding was quietly solemnized at 6 a. m. in the presence of the family of the bride's parents, Miss L. A. Kerr of Amador City, acting as bridesmaid and George A. Wrigglesworth, brother of the bride, as best man. A sumptuous wedding breakfast was partaken of immediately after the ceremony, after which the newly wedded couple were driven to Martells, and there took the train for Santa Cruz, where they intend to spend three weeks. The bride was the recipient of many valuable and useful presents. When the carriage conveying the bridal pair to the depot passed through town, it was decorated with the symbols of good wishes in the shape of an assortment of old shoes, and also a board fastened to the rear of the carriage upon which was inscribed in large letters "We are married now."

The bride is the daughter of Mr and Mrs Jos. Wrigglesworth, engineer at the Zeila mine. She is of a sweet and amiable disposition and has a host of friends not only in this city, but throughout the county. She has taught school in this county for several terms, and last term was a teacher in the public school of Lodi. The groom holds the position of foreman in a lumber yard in Lodi, and is spoken of as an estimable young man in every way. He is to be congratulated upon winning such a lady as his life partner.

After the honeymoon trip the pair will return to Jackson for a few days, after which they will make their home in Lodi.

DREDGE MINING.

The method of mining for gold by means of the dredger has not invaded Amador county to any extent as yet. It has proven a great success in some of the northern counties after an experience covering a period of several years. It was called into activity primarily as a practical method of recovering the precious metal from the beds of the Sacramento and tributary gold-bearing streams. But the field of operations has been greatly enlarged. It has been applied with equal success to the worked-out placers, not adjacent to river channels. The methods of mining in early days left considerable gold in the debris, and ground too poor to pay by the then known methods were left until improved appliances should render them profitable to work. It is due to the dredger that Butte county last year was lifted to first place among the gold-producing counties of California.

While Amador county has been left out in the cold as far as dredge mining is concerned, it is not improbable that there are many placers worked over hurriedly in early days that might reasonably be expected to yield a handsome profit if operated by the dredger system. A dredger was set to work on the Mokelumne river in the neighborhood of Lancha Plana, and this, we believe, is the only point in the county that has been touched by the new process. How the venture panned out financially we have not learned. But surely there are many other places among the piles of tailings from the abandoned placers that are deserving of attention by the dredger men. According to reports some of the placer ground in the neighborhood of Mokelumne Hill is under consideration as a possible field for dredge mining.

There may be obstacles in the way of the introduction of this kind of mining in this county that we know nothing of, outside of the first cost of the plant, which is a serious matter in itself. A dredger machine for gold mining is a ponderous and costly affair, involving an outlay of somewhere in the neighborhood of \$100,000 before it is ready for the work of gold extraction. That is as big an investment as that required by the opening up of a quartz claim on the mother lode. Such an expenditure would naturally be preceded by a thorough examination of the mining field to find out beyond reasonable doubt whether the conditions justified the expense. That is really the point in issue, whether or not this county has been experted with the end in view of definitely determining its adaptability for dredge mining.

Our citizens of Italian nativity will be interviewed during the next few weeks by an agent of the federal government who is identified with the United States immigration commission. His business is to collect data concerning the financial, social and other conditions of this particular class in the United States. This agent will probably be followed by another who will inquire into the conditions of the Austrian population. The list of questions propounded is so formidable that many are apt to look upon the movement with distrust, and consequently withhold the information sought. We may say that those concerned have no cause to fear this investigation. It is designed not only for the good of those already in this country, but more particularly for those in the old world who are thinking of emigrating to the United States. Upon the reports that will be submitted to congress based on these interrogatories will depend the character of the changes to be made in our immigration laws—whether radical or conservative. Better, therefore, to answer the questions freely and fully. There is no trap in them, however inquisitorial and over-minute in detail they may at first appear to the parties interrogated. Foreign-born citizens will do well to advise their fellow-countrymen to this effect beforehand, thereby paving the way of the immigration agent.

The cartoons appearing in the Call on the graft defendants are shocking to every right-thinking man. They are intended to impede the course of justice by creating a prejudice beforehand against some of the so-called "higher-ups." They are simply villainous. The revolt against Sprekleism is not surprising.

## CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. ## One of Hook's Practical Jokes.

Theodore Hook forged 4,000 letters to 4,000 tradesmen and others requesting them to call on a certain day and hour at the house of a wealthy widow, Mrs. Tottenham, in Berners street, London, against whom he had conceived a grudge.

These people began to arrive soon after daybreak. The rush continued until nearly midnight. They came by fifties and hundreds.

There were 100 chimney sweeps, 100 bakers, fifty doctors, fifty dentists, fifty accountants. There were priests to administer extreme unction and Methodist ministers to offer last prayers. There were fifty confectioners with wedding cakes, fifty undertakers with coffins, fifty fishmongers with baskets of cod and lobsters. They pushed, quarreled and fought, and the police were called out to prevent a riot. Finally among the hoaxed ones came the governor of the Bank of England, the royal Duke of Gloucester and the lord mayor of London, each lured thither by some cunning pretext. A police investigation followed, but the perpetrator was not detected.

## A Wonderful Bowman.

The Romans were very skillful bowmen, although they discarded the weapon in warfare, trusting to the charge and to hand to hand fighting. Many of the Roman emperors were famous archers. It is said that Domitian would place boys in the circus at a considerable distance from him and as they held up their hands with the fingers outstretched he would send the arrows between them with such nicety and accuracy of aim that he never inflicted a wound.

The wicked emperor Commodus boasted that he never missed his aim or failed to kill the wild beast that he shot with a single arrow. He would set a shaft in his bow as some wild beast was set free in the circus to devour a living criminal condemned to die. Just when the furious animal was springing on his prey the emperor would strike it dead at the man's feet. Sometimes 100 lions were let loose at once in order that he, with 100 arrows, might kill them. With arrows the heads of which were semicircular he would sever the necks of ostriches in full flight.

## A Talent For Balancing.

The pleasant coffee room of the old Star and Garter at Richmond, which was burned down in 1869, was patronized by England's statesmen, politicians and writers. On Saturday evenings it was regularly visited by a middle aged gentleman of rather broad stature, with gray hair and a large shirt collar which formed a conspicuous feature in his attire. He would dine always alone at a particular corner table, and after dinner it was his humor to build up before him a pyramid of tumblers and wineglasses, which he topped with a decanter. Occasionally the whole structure would topple over and litter the table with its ruins. Then the middle aged gentleman would rise, pay his bill, including the charge for broken glass, and depart. The waiters knew him well. He was Thomas Babington, Lord Macaulay.

## Curious Greetings.

A French journal has been looking into the question of how different races express the colloquialism "How do you do?" and presents some curious examples. The Koreans, for instance, do not give or imply any offense when they greet each other with the remark, "You do look old." Persians say, "May Allah preserve your beard and cover it with benedictions." Among a tribe of Fiji islanders the correct form of salutation is to pull one's ear. A Caroline islander kneels before his friend, whose foot he grasps and slaps himself vigorously in the face with it. In the Sudan a traveler was addressed by a native chief as "Mighty sun," the said chief finishing up with "Glory to thee, O splendid moon," the remark being accentuated by expectorating in the traveler's right hand.

## Greatness.

There is a kind of elevation which does not depend on fortune. It is a certain air which distinguishes us and seems to destine us for great things. It is a price which we imperceptibly set on ourselves. By this quality we usurp the deference of other men, and it puts us, in general, more above them than birth, dignity or even merit itself. —La Rochefoucauld.

## A Coincidence.

"I'm afraid, George," said his fiancée, "that you are going from bad to worse."  
"Quite a coincidence," muttered George. "That's what Clara said when I threw her over for you."

## Spurgeon's Complaint.

Mr. Spurgeon once complained that his deacons were worse than the devil.  
"Resist the devil," said he, "and he will fly from you, but resist a deacon and he will fly at you."

## Hope.

"There is no sweeter suffering than hope." So runs an old German proverb, melancholy text for hearts that bitter disappointment has cured and to whom all hope is but memory.

## Not Entirely.

Moe Rose—Do you think the automobile is replacing the horse? Joe Cose—Well, not entirely, anyway. I haven't found automobile in my bologna as yet.—Browning's Magazine.

## Of a Modern Genius.

"Going to compile his life and letters?"  
"There were no letters. I'm going to compile his life and post cards."—Washington Herald.

FROM OUR  
CORRESPONDENTS

**LANCHA PLANA.**  
R. Barnett, his wife and Master Carl, returned home Wednesday noon after a month's stay at their mountain range. They reported the temperature much warmer than usual in those parts.

The Lancha Plana and Wallace stage line is to again change hands in the near future. Jesse Lynes is the young man who will hold the ribbons for the remaining two years of the contract. Mr Lynes will commence his duties as stage driver after the first of September. R. A. Baird and E. Cotton, the present owners, own a ranch near here. Mr Lynes has received a fine pair of young horses to do the work, and went to Stockton the first of the week and brought out a new stage. All wish Jesse success in the new enterprise.

Quite a number of Indians are camped a little below the Mokelumne bridge and are engaged in placer mining. It is quite an interesting sight to watch them at their work. Little may be seen in the small handful that is left around here, of the brave warrior who roamed those hills not so many years ago. Quite a number of caves around here show from the blackened walls where their homes once were. In one cave at the writer's home, mortars made in the solid rock bottom are to be found, with the pestles lying beside them. Numerous flint arrowheads and also Indian skulls have been plowed up in the fields about here, all pointing to an old Indian camping ground.

Mrs K. Kerrah and daughter, Leona, left for home Wednesday, after a two months' visit here.—Cor. Stockton Record.

**AUKUM.**  
Aug. 17—Cooler weather is very exceptable and much enjoyed after the hot wave of the past few weeks.

Newton Perry and family, and Emma Tyler left this morning (Monday) for Wentworth Springs, to remain until September 1st.

Hazel Perry will stay with Mrs J. Votaw, her grandmother, and go to school until her parents return home. J. A. Wigglesworth and family left Monday morning for the Cosumnes, where they will have employment until late in the fall.

Louie Seely and wife, Jack French and son, went to Henry Seely's timber claim to make shakes.

Chas. Bell and son Cleave, and Carl Goffinet are making shakes near Grizzly Flat. They have quite a number of 1000 already made. Chas. Bell came to see his family Saturday.

Dr. Saunders and wife, Frank Cooper and wife, and Milt Votaw, went to Wentworth Springs for a couple of months.

Joe Wigglesworth has installed four new boxes on the Aukum telephone line. There are 21 subscribers now.

Pigeon Creek school opened Monday with C. Upton as teacher.

Geo. and Louie Maylone, Fred Youse, with several other young men left for the hop fields, orchards or other employment.

The Shenandoah Valley Co.'s threshing machine has threshed in this section one week, and will now go to Ione and expect to have thirty or forty days' work.

Mrs M. Seely was summoned by phone to her granddaughter, Mrs Hattie Clement of Sacramento, who is critically ill.

John Randolph has procured employment with his team at Perkins.

Henry Seely has gone to Los Angeles, to remain indefinitely.

**W. A. L. IONE.**  
Aug. 20.—Mrs E. A. Phillips departed for Los Angeles last Tuesday, where she will visit for a couple of months with her daughter.

Mrs H. Clark passed away last Tuesday morning, after a long illness, and the funeral was held after train time last night.

Misses Maud Marchant and Hazel Prouty have returned from Utah, where they report having spent a delightful summer. They were accompanied by Miss Marchant's sister, Mrs Kennedy, who will visit here for a few months.

Our postmaster, J. F. Scott, is spending his vacation in San Francisco this week.

Mrs Ella Miller and little daughter, Roberta, came up from the city yesterday, to be present at the funeral of Mr Clark.

Mrs Harry Burris and daughter are enjoying a few weeks' rest in Stockton, visiting relatives.

About twelve of Ione's young men and women left last week to enter the State University the following term. All were fortunate enough to gain admittance, which speaks well for our high school.

Miss Amy Clark of Jackson, is the guest at the home of her friend, Miss Lydia Winter, this week.

Fred Merkel and wife of Latrobe, are shaking hands with old friends in this vicinity.

SUTTER CREEK.

Aug. 20.—Mrs James Riley and children returned from Shenandoah Saturday evening, after a week's visit with Mr and Mrs Rickey, Mrs Riley's parents.

Mrs F. Lemoin and son of Jackson, were visiting in Sutter Thursday evening.

Eugene Tucker went to Ione Wednesday afternoon, to attend the funeral of his grandmother, Mrs Clark, who died at that place on Monday.

John McDugal Post, an old and well known resident of Sutter, died at his home last Monday afternoon, after a lingering ailment of many months. Mr Post was a native of St. Stephen, N. B., and about 75 years of age, and has resided in Sutter since '51. He leaves a widow, three daughters and a son, and several grandchildren, to mourn his loss. The funeral was held from Masonic and I. O. O. F. hall Wednesday afternoon under the auspices of the Masonic order, the Knights Templar, who officiated as pall bearers, the Blue Lodge, conducting the services, and the O. E. S. also turning out in a body. A large number from Amador and other places came to take part in the last sad offices to the dead. The funeral was a large one.

John Phipps sr., John Phipps jr., and wife, Dr. Lynch and wife, Mrs Reeves and Mrs Allen were over, from Amador to attend the funeral of Mr Post.

Mrs Dan Horrigan left Thursday for an indefinite visit with relatives in Graniteville, Nev., and will later join her husband at Miller, Nev.

Charles Brown of Sacramento, is here this week visiting relatives.

James Kerfoot has resigned his position as engineer at the Bunker Hill mine, and accepted the position of engineer for the Central Eureka.

Geo. T. George and wife have removed from Amador City to this place this week, to reside. Mr George has accepted a position in the store of his brother-in-law, C. E. Richards.

Ralph McGee left for Berkeley this week, where he will shortly enter the State University.

Mrs Charles Norton has returned from Newcastle, where she had been visiting relatives for several weeks.

Geo. Santos and wife, Miss Gertrude Santos and sister-in-law, Mrs John Santos, of Stockton, who have been the guests of their uncle and aunt, Mr and Mrs J. Indlekofer, for a couple of weeks, returned to their home last Friday.

Mrs Baughman of Oakland, and Mrs Ed. Cramer and family of Stockton, were visiting their mother and brother, Mrs H. Deacon and sons the past week.

L. Gagliardo and Oliver Wadge returned from Blair, Nev., last Friday, where they had been employed in one of the mines. They will remain at home indefinitely, as they expect to return to Goldfield some time later. Sutterite.

Soothes itching skin. Heals cuts or burns without a scar. Cures piles, eczema, salt rheum, any itching. Doan's Ointment. Your druggist sells it.

SINCE THE BOYS  
CAME HOME FROM BLAIR.

There's a rustle and a bustle,  
And the town is all a bustle,  
And for prominence a tussle—  
Since the boys came home from Blair.

The girls are dressed in dainty frocks,  
Their smiles are like electric shocks,  
And all of them have golden locks—  
Since the boys came home from Blair.

The older folks are getting spry  
The younger birds are on the fly,  
And some are being fed on rye—  
Since the boys came home from Blair.

The farmers all have moved to town  
The mines are all a closing down,  
And no one ever wears a frown—  
Since the boys came home from Blair.

The boys all say, "I'll take a steam,"  
The girls they say, "I like ice cream,"  
The dealers say, "Ain't they a dream,"  
Since the boys came home from Blair.

Now everyone's invited to come and see  
For themselves, if they don't believe me,  
We're going to have a grand jubilee—  
Since the boys came home from Blair.

State of Ohio, City of Toledo,  
Lucas County,  
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co; doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of One Hundred Dollars for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sworn to before me and subscribed in my presence, this 6th day of December A. D. 1886.

A. W. Gleason,  
Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

Reserved Seats at Spagnoli's Drug Store.

POLITICS MOVING.

The democratic county central committee met in Jackson August 13, and issued a call for a county convention to be held in Jackson on Monday, August 31. It was decided to transact all pending business in regard to county candidates, delegates to state convention, at one convention. There will be six delegates to the state convention to be elected, the first time in a number of years that Amador has been entitled by virtue of its party vote for the heads of the tickets to a stronger delegation of democrats than republicans. The other business will be nomination for superior judge, and three supervisors, one each in township one, two and four. Primaries for the selection of delegates to this county convention are to be held in the various precincts next Wednesday evening from 7 to 9 o'clock. The polling place for these primaries in all the Jackson precincts are to be held in the supervisors' room, another innovation introduced by those in control of the court house. It is all very well for daylight meetings, county conventions, etc., to be held in public buildings—although even that practice is open to objection. But it has been done from time immemorial and involves no expense upon taxpayers. But with night meetings where lights have to be furnished, it is different. The taxpayers of the county are arbitrarily made to put up for the expense.

The republican committee of Calaveras county met last Saturday and issued a call for a county convention to be held September 19. Primaries for the selection of delegates to the same to be held September 12. In this county the democrats have made no move as yet.

No call has been issued for a republican county convention in Amador. The committee has not met, and we understand will not be called until after the state convention. It has been arranged that the republicans meet in caucus in their respective districts tomorrow, and take such steps as they may deem proper for the election of delegates to represent them in the state convention to be held next Thursday in Oakland. The apportionment of delegates has been made the same as for the last state convention, namely: Township 1, one delegate; township 2, one delegate; township 3, one delegate; township 4, one delegate.

For superior judge the republicans appear to have no one to put up against the present incumbent, R. C. Rust, who will undoubtedly be re-nominated on the democratic side. For supervisors all three of the outgoing incumbents are anxious to succeed themselves. In township one, John Strohm, at the last election won as an independent candidate, against M. Newman, the regular democratic nominee. He has heretofore stated that he would again run as an independent, but it is rumored that the democrats are pulling the wires to have him run on the democratic ticket, hoping that it will help their chances of success, not only this time, but two years hence, when a full county ticket will have to be put up. On the republican side, W. Tam, Dr. Gall and V. S. Garbarini have been mentioned. Dr. Gall is deemed the strongest man, and would land a winner against any one on the other side, if he can be persuaded to accept.

In Ione things are somewhat mixed. W. M. Amick wants to try it again; John W. Jones has also been mentioned. The democrats want R. Bagley, but Bagley and Amick are related; it

is improbable they will consent to be opposing candidates.

In township 4, D. A. Fraser, incumbent is the only one mentioned on the democratic side. Republicans believe C. E. Richards can pluck the prize if he will make the race. E. Botto is also talked of.

Unclaimed Letters.

John Frilliani, Casale Giovanni, Michael Gudel 2, Luigi Magnani, John Sanderson, Miss Agnes Tynan.

Brush Fire.

Friday and Saturday a fire swept over an extensive area in Jackson valley. A strong force was called out to save the village of Buena Vista, which was threatened for a time. There was no serious damage done, except destroying considerable dry grass. It burned up a lot of grease-wood, which is a blessing rather than otherwise, as it will give a chance for good feed to spring up in its place.

Marriage by Halter.

Among ignorant people of English birth it was once the belief that a wife bought with money or goods was legally married if the purchaser led her all the way home by a halter.

Mr. Baring Gould, the English antiquarian, told of a village poet known to him who bought a wife for a half crown and led her twelve miles to his cottage. The squire and the rector protested to the village poet that he was not legally wedded.

"Why, yes, I be," he replied. "I'll take my Bible oath I never once took the halter off till she'd crossed the doersill and the door was shut."

The latest instances of such wife sales occurred in 1858 and 1859, when women were sold in Little Horton and in Dudley. In these cases a blue ribbon took the place of the straw halter.

San Francisco offers great opportunities. Prepare for them by taking a course in the San Francisco Business College, 733 Fillmore St., S. F.

BORN.

DIGITALI.—In Jackson, August 16, 1908, to the wife of Ernest Digitali, a son.

### LOCAL NEWS

Pioneer flour is the best; have no other.

Andrew Noco, has resigned the superintendency of the Silver Peak mine at Blair, Nev., and returned to this county Friday last. A number of Amador county boys who were working there quit at the same time, and returned to this county. Lawrence Sanguinetti and his brother Ben were from Jackson and vicinity, but most of them were from Amador City.

The Ledger this week has received direct from Chicago over a ton and a half of printing paper, including a quantity of high class bond and ledger paper suitable for letter heads, bill heads, etc. We have the finest paper stock in the county to select from. Send in your orders for fine class stationery.

In cleaning out the drift of the Bright mine this week the boys came across the body of a yearling calf about 60 feet from the shaft. It must have fallen in the shaft, but how it came so far in the tunnel is a mystery, as the tunnel was full of water. From the appearance of the remains it was thought the calf must have perished three or four months ago at least.

Alex Adams of Pine Grove, who has been working for the Union Construction company at the big power works in course of construction near Vallecitos, Calaveras county, was here Monday. The excavation of the ditches is completed, and most of the reservoir work is through with, so that the force of men has been greatly reduced. Mr Adams intends to return in the course of a few days, as he has work there for some time yet.

Henry Chapman and one of the Sharenbrook boys started for a fishing and pleasure trip to Silver Lake region last week, to be gone a couple of weeks.

Frank Duden went to San Francisco Monday, to spend a few days. Miss Norman, who only recently returned from her vacation in Lake county, and Miss Dufrene are taking care of the postoffice during his absence.

E. V. Zumbiel, secretary of the Argonaut mine, left Sunday morning with his family for a couple of weeks' vacation.

Mrs T. Hocking returned Sunday evening from San Francisco, after surgical treatment at one of the hospitals there, involving a critical surgical operation. She is getting along nicely toward recovery, although still weak from the effects of the ordeal.

Frank Cadematori and party who went on a recreation tour to Silver Lake and other resorts about three weeks ago, returned home yesterday, much benefitted by the trip.

Buy the best sewing machines made, for sale cheap. Z. T. Justus, Weil Bldg. Jackson.

Mrs E. A. Armstrong, accompanied by her daughter, arrived from Grass Valley, Nevada county, Sunday evening, on a visit to her parents, Mr and Mrs Steve Angove.

Ledger & Chicago Inter-Ocean, \$2.50

The Amador Mills at Ione are offering mountain pine lumber at \$20 per M; Oregon pine at \$22 per M. Any one wanting lumber will do well to call on them as the stock will not last long. Amador Mills.

Monday at high noon Philip Heinrich and Miss Lizzie Wess were married at Marysville. Phil. Heinrich is a brother of P. P. Heinrich, and is in the butcher business at Chico. Miss Lizzie Wess has been for several months with P. P. Heinrich's family, coming here from Plymouth, Amador county, where her folks reside. The married couple went from Marysville to Chico, where they will make their home.—Yolo Mail.

R. C. Bole went to San Francisco Wednesday to spend a few days on business matters.

Miss Loreta Meehan will leave next week for Santa Cruz, where she will spend her vacation.

Miss Kate Driscoll will return to Lodi next week, to resume her duties in the schoolroom. She will be accompanied by her sister, Miss Nellie, who will visit with her for awhile.

The Ladies' Aid of the Methodist church will give a dinner at the Odd Fellows' Hall on Labor Day, September 7th, at 25c per plate.

"Remember that \$100 prize you are liable to win by insisting on Peerless Flour, every sack guaranteed." Amador Mills.

John T. Kelly, who for his health's sake took a trip recently to some mineral springs and other health resorts, returned home a week ago last Sunday, in a very enfeebled condition. He is at the residence of his parents, a mile north east of Jackson. His condition was so alarming that the attending physician, Dr. Endicott, called Dr. Adams in consultation on Tuesday. They diagnosed the case as tuberculosis. The patient was in a very critical condition at last report.

On Thursday morning a party of three namely, F. W. Rubser, John Thomas and R. Ousby started for Kirkwoods, for a three weeks' outing. The latter is doing nicely since his return from the sea coast in the southern part of the state, and thinks the mountain climate will hasten the re-establishment of his strength.

M. L. Smith Notary Public and Stenographer, Court St., Jackson, Telephone Black 413.

Up to this date 730 hunting licenses have been taken out in this county. The imposition of the annual license on hunters has proved a big success as a revenue getter, and more than meets all the expense of the protection of game in California.

A man named Pratt of the Gwin mine came here yesterday for a doctor's advice in regard to an injury to his foot, caused by a horse stepping on it. He had neglected to consult a surgeon at the time, hoping that it would get well. But the pain increased, and he was compelled to seek aid. Dr. Endicott found that one of the bones had been broken, and the foot otherwise crushed.

R. L. Mann, the tonsorial artist, sprained his ankle in the Odd Fellow's hall last evening during the regular meeting of the Eagles lodge. He is around with the aid of cane.

Mrs McGary left this morning for San Francisco on business. Miss Stella McGary accompanied her, and will enter a millinery establishment with the object of learning that business.

Mrs A. Burgin has gone to the city for an indefinite period, and will be engaged in a large dry goods firm for the purpose of becoming acquainted with the millinery and dressmaking business.

John Chion left this morning for a trip of a week or ten days to Grass Valley, on a visit to his daughter, Mrs Hill.

E. Marre and Bro., are hauling a carload of valley wine from Martells to their store on Broadway.

Gilbert Voorheis returned Sunday evening from Oakland and Berkeley, where he spent a few days.

### Temporarily Laid Off.

About 250 men were temporarily laid off at the Kennedy this morning, to enable needed repairs to the shaft. The mill will be kept running on rock accumulated in the ore bins. Eleven or twelve men will be put to work in the shaft, and it is expected to have the repairs completed so as to resume work Monday morning. The lay-off of the underground miners therefore is only for two days, as Sunday is a rest-day in underground work at this mine anyhow.

### Diarrhoea Cured

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle of Philippi, W. Va. "He saw Chamberlain's colic, colera and diarrhoea remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by Jackson's drug store, Spagnoli, prop.

Charles Corin, who has been employed at the Campo Seco copper mine for the past three years, in a responsible position, resigned his place early this week. He was in Jackson Monday, and intends going to San Francisco for medical advice, as his health has not been good for some time. He and family will probably thereafter return to Amador county. He reports things moving slowly at the copper mine since the fire. From 15 to 20 men have been laid off, and it is expected more will be thrown out of work for several months, until the damage by the fire can be repaired and enable the mine to run toll blast again.

W. G. Anderson, formerly of this city, where he attended school in his boyhood days, but who is now superintendent of the Iona gold mine in Colorado, is engaged in one of the hugest tunneling operations in connection with that mine that has ever been undertaken in the history of mining. The tunnel has already reached a distance of 5514 feet, with a distance of 1240 still to go before the main fissure vein is reached. The main lode is known as the Argentine vein, which has surrendered millions of dollars. The lode expects to strike equally rich ore as it has proven at other points in the past. It is hoped to complete the tunnel in January next.

"C. P. Vicini went to San Francisco last Saturday on business and from there to Pacific Grove, where his family is spending their vacation. He will return in a few days.

The party of capitalists from San Francisco, accompanied by Andrew Noco left the city in an auto, with an expert chauffeur, at 7 o'clock in the morning, and reached Jackson at 3:30 the same afternoon. The distance traversed was at least 160 miles, so they must have averaged about 20 miles an hour. They left for the city again Monday morning. The same parties visited Angels, to look into a mining proposition in that camp.

Mr and Mrs Hooper and daughter, came up from Alameda county yesterday in an automobile, on a visit to Mrs Richmyer.

The team belonging to the bakery wagon of Veratto & Co., ran away early this morning in coming down the hill from the court house to Main street. They came to a halt by being unable to make the turn on Main street, and both horses fell on the sidewalk in front of recorder Thompson's office. The only damage was a slight displacement of the woodwork in front of the judge's office.

The infant child of Morris Newman died early yesterday morning at the Newman residence on Court street. The little one was about five weeks old, and after the death of the mother in San Francisco week before last, the child was brought to this city to be taken care of by its grandmother. The funeral will take place today; interment by the side of the mother in Amador City cemetery.

Mrs Frank Simcich returned this week from a month's stay at Bartlett's Springs, Lake county. Her niece, Miss Simcich, came with her from San Francisco for a short visit.

Mrs Tadis and son departed this morning for their home in Rhyolite, Nev.

A performance will be given in the Van Ness Avenue theatre, San Francisco, next Friday for the benefit of Mrs Jud C. Brusie. The seats are selling at a big premium, and a handsome sum is expected to be realized for the widow.

M. F. Calkins resigned the secretaryship of the local lodge of Eagles at the meeting last night, as he is about to leave for the city to stay. Theodore Crocker has been elected secretary in his place.

The republican caucus in Township one will be held in Dr. Gall's office tomorrow evening, Saturday, to select a delegate to the state convention from this district. Meeting at 7:30.

Ed. Delabide left Sunday morning for San Francisco, and from there will go to Washington state.

### Traveling by Auto.

Commercial travelers are adopting the automobile as the means of conveyance in these foothill counties. Of course, they have been in use for a long time in the southern part of the state, where the roads are in good condition. They are now being introduced in the mountains. A traveler in the employ of the Pacific Hardware Co. was here Wednesday on a trial trip. The machine was of 20-horse power. It is claimed that the cost, considering the increased distance that can be covered in a given time, is less than team hire. Another drummer was here the same day with his outfit. The Pacific Hardware Co. has between 20 and 30 of these machines in use by its own drummers. Scarcely a day passes without one or more of these machines being seen on our streets.

J. J. McDonald representative of the hardware firm of Schaw, Batchelder & Co., was the first traveling man to make the trip through Jackson with an automobile. He left Sacramento, where the house is located Monday morning, and drove to Ione making the distance in two hours and forty minutes. He had plenty of time after arriving there to see all his customers. The drive to Jackson was made in forty minutes, so that he arrived here comparatively early in the afternoon.

### Arrested for Adultery.

James Mortimer and Ellen Boney were arrested Friday of last week, on complaint of U. S. Gregory, for living in open adultery. The facts are that the woman came over from Angels a few days before the arrest, and was taken to premises occupied by Mortimer, which is separated from the hall of records by an alleyway about six feet wide, and which is also adjoining the dwelling house of sheriff Gregory. After several days had elapsed, the complaint was sworn to and defendants taken before city recorder Thompson. Both pleaded guilty, and were fined \$20 each or 20 days in jail. They are both taking it out in jail. Mortimer has been a resident of this town for a number of years, and a sign painter by profession, and indeed quite an artist with the brush. It is reported that he was refused an opportunity to endeavor to raise the amount of the fine, but this is not so. It seems the sheriff said he had no time to go around with him, but that he might use the telephone for that purpose if he so desired.

### Will Start Automobile Line.

A daily automobile service will be in operation between here and Sacramento within the next week, if the plans of the promoters of the scheme, Young & Miller, of the Cotter place work out. It is their intention to have the line running before the state fair opens there on the 29th instant, for they expect a large travel on that account, and also because of the novelty of it. They will put on two machines, Studebaker make, capable of holding seven passengers, leaving Sacramento and Jackson at the same time in the morning, running through Sutter Creek and by way of Plymouth.

### An Old-time Showman Returns.

Charles Acher, the all-round showman, who was manager for John Chinn when the variety show was running in the rear of the Exchange lodging house some years ago, returned to this county on Wednesday. He is manager of the Jolly Bohemian Concert Company, consisting of himself, Harry Weaver and Jose Velaga. He has been playing through Nevada and other counties, but reports the show business as dead as it could possibly be. The troupe will go to Pine Grove tomorrow night, and Volcano, West Point, Amador City, Drytown and Plymouth succeeding nights, thereafter returning to Jackson to decide upon a future course of action.

### A Close Call.

A few days ago Manuel Melio, a well-known character around here, stuck a pocket knife accidentally into his left leg, cutting a severe gash, and barely escaping the femoral artery. Dr. Endicott was called to attend him at the ranch near Butte mountain, and closed the wound with a number of stitches. He is doing well under the circumstances. If the artery had been cut he would no doubt have bled to death in a few minutes.

### Fell Down a Cellar.

John Guisto, who is feeble from age and rheumatism, and partially blind, met with a serious mishap on Wednesday. He lives in one of his own houses opposite the county hospital. By some mistake he fell down the cellar hole, a distance of nine steps. Dr. Gall waited on him and found he was severely shaken up and bruised, but no bones were broken. Owing to his impaired health, the process of recovery will be slow.

## STILL IN THE FRONT

For full lines of clothing, shoes, drygoods, gloves, silks, laces, embroideries, ladies' waists and ties, and corsets, all of which will be sold to the people of Amador county for less than any house in the state, taking out the expenses and express charges.

## SHOW'S CASH STORE

Sutter Creek - California

### SUPERIOR COURT PROCEEDINGS

HON. R. C. RUST, JUDGE

Estate of Bessie Stone.—W. H. Hancock appointed administrator upon filing bond of \$500. W. Berryman, Lawrence White and V. J. Chichizola appointed appraisers.

Estate of D. B. Pardoe.—Hearing of application for letter changed from August 15 to September 1. Also ordered that motions and applications in said case may be heard on other days than Saturday, the regular law and motion days.

Estate of F. A. Voorheis.—Final account filed; August 28 set for hearing.

### New Cases

John Grillo vs. Sutter Creek Gold Company.—Suit to recover the sum of \$1140 for goods sold, and on assigned claims. The defendant corporation was operating the mining claim known as the Ireadwell mine, some seven miles above Sutter Creek. There is a small mill and other personal property on the claim. The land is held under a possessory title, and work has been abandoned for some time, with considerable amount of unpaid taxes due thereon.

### Gave New Bonds.

Peter Dabovich, the cashier of the Sutter Creek bank, now in process of liquidation, who is under arrest for felony embezzlement, came over to Jackson Tuesday and surrendered himself to the officers. This was in order to give new bonds, as the parties that went on the bond at the time of his arrest, F. Soracco and F. Werner, did so temporarily, so as to avoid the necessity of the accused going to jail. W. G. Snyder went over to Sutter Creek Tuesday and made out and administered the oaths to the new sureties. The bond is \$10,000, with sureties qualifying in double the amount, making \$20,000. The bondsmen are John Raddatz, James Hayden, John Brignole, Daniel Ramazzotti, Fred Raab, Orville Randolph, D. A. Fraser, and L. Soracco. The bonds were accepted, and the defendant released, pending examination.

### "HER ONE GREAT SIN"

Miss Florence Stanley, who wears the director's gown in the play to be seen here next Wednesday night at Love's opera house, thinks the sheath dress will never be adopted by the American women as a popular mode of dress. While not vulgar, and quite comfortable and easy to wear, it is conspicuous, and Miss Stanley, being an American woman, feels that, in justice to the ladies, they are not quick to take up fashions that in any way border on immodesty.

The gown she will wear is a very beautiful creation in black satin embroidered in gold, and as a work of art it is supreme.

J. F. Wilson, Dentist, Hours 9 a. m. to 5 p. m. Phone—Office, black 44; residence, Black 394; Jackson.

### DOCUMENTS RECORDED.

[The following instruments have been filed for record in the recorder's office since our last report. We publish a complete list of documents recorded, and must decline to accede to any request to suppress any document from these columns. Don't ask us to do so.]

Deeds.—Antonio Bottino to Gasparo Galerio, one-third interest in lot in Volcano.

Gasparo Galerio to Giacomo Lagomarsino land in Volcano, 1/2 interest to water rights in Volcano, and a gravel claim in Volcano, \$10.

Jacob Stone to M. J. Andrews, 120 acres in 7-7-14, \$10.

Thomas Rouse et al to Ezra Taylor, 200.38 acres in 4-7-10, and water right from Indian Creek, \$1000.

Thomas Westfall to John A. Loftstad, 1/2 interest in Silver Peak mining claim, \$10.

Robert Brown to Mary V. Brown, his wife, 80 acres in 31-8-11. Deed of gift.

H. E. Potter, administrator, to Louis J. Gagliardo, lot 8 block 4, Sutter Creek, \$15.

Anna C. Richards to Ella W. Grove, part of lot 14 block 10, Sutter Creek, \$10.

Mortgages.—Charles and Jennie E. Child to Chester A. Blyther, 120 acres in 4-4-9, to secure a promissory note for \$300 for 5 years, with interest at 7 per cent.

Deeds of Reconveyance.—C. L. Culbert and A. Ginochic, trustees, to C. D. Chapman.

C. L. Culbert and J. Chichizola, trustees, to P. S. and Addie Goodman.

Satisfaction of Mortgages.—F. N. Soracco to Alexander Hodge et ux. Location Water Rights.—Arthur F. Adams of 10000 inches from the Mokelumne to be conveyed to the Sunilda placer mine.

Mining Locations.—Charles Zavalla et al of Gold Pick quartz claim in Volcano mining district.

James Hanley and A. E. Williams of the Wasp quartz claim in Volcano mining district.

L. H. Brown of the Brown No. 1 quartz claim in Clinton mining district.

L. H. Brown of the Brown No. 2 quartz claim in Clinton mining district.

Charles Zavalla et al, locates the Gold Pick quartz claim near the West Point bridge.

Patent.—U. S. to Edward Wiley, 160 acres in 28-8-14, as agricultural land.

### A Faithful Friend

"I have used Chamberlain's colic, cholera and diarrhoea remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. "When a man has used a remedy for thirty-five years he knows its value and is competent to speak of it. For sale by Jackson's drug store, Spagnoli, prop."

### CASTORIA.

Bears the Signature of The Kind You Have Always Bought

## Clipped from our Exchanges

From Near-by Counties.

Assistant state forester, M. Smith, who has been in charge of the fire fighting along the line of the Utica flume and in the vicinity of the Big Trees called at the office Thursday and gave some details of the friction that has arisen in that section in regard to the fire. Mr. Smith pays a high tribute to the rangers who assisted in the fire fighting and wishes to assume all the responsibility for whatever misunderstandings may have arisen, as he is the responsible party and all work was done under his orders. The assistant forester wished us to correct the apparently widely accepted idea that there was any law that a back fire should not be started within 60 feet of the fire line or that he or the rangers attempted to enforce any such regulation. On the contrary there is no limit to the distance of back fires, and the starting of them is in the discretion of the officer in charge and that it would be absurd to fix any distance in which to start them, in a broken country covered with heavy timber. He claims that some of the fires started by his orders were a mile in advance of the fire line.—Prospect.

The Methodists of Redding, this state, have paid the Rev. Dr. J. W. Phelps, a former pastor of the Jackson church, a high compliment and asked for his return to the pastorate of the church there for the third time. Doctor Phelps was for three years pastor of the Nevada City Methodist church and during his administration of the pastorate proved to be one of the ablest preachers and executives ever sent here. From Nevada City he went to Oroville and from Oroville to Redding. At the quarterly conference held recently at Redding, at which district superintendent Evans presided, it was decided to ask Doctor Phelps to return for the third time. The church there has prospered greatly under his fostering hand and the members of the church are delighted with the spiritual help and inspiration they receive from him. During the last year it was stated in the report of the officials that \$2,500 had been raised to liquidate the indebtedness on the church and to assist in defraying the salary of the pastor.—Nevada Transcript.

As a result of the scrap on Friday of last week, eight of the men arrested plead guilty and paid a fine of \$20 each, three plead not guilty and submitted their case to Justice McClory, who decided that they were guilty and fined two of them \$40 each and the other one \$30. The men refused to pay their fines and are now in jail at San Andreas. Each of the three men are said to have money in the bank in this town.—Angels Record.

David B. Driver, the ditch tender for the Union Water Co., was arrested Tuesday for backfiring without the consent or order of the forest ranger, and his trial will take place within a few days. The trial promises to be interesting, as the people here are unanimous in their belief that Mr. Driver was right, and the Utica Mining Co., owning the flumes which he was trying to protect, will stand the cost of the trial and see to it that he gets justice.—Angels Record.

Thomas A. Edison, inventor, is 61 years old, and says he is going to take a rest; travel some, and indulge in some studies in pure science, without thought of commercial gain. For years Edison has been a great worker, perhaps the greatest the country has known in the matter of hours and application, and he has few equals in results, taken one way and another. There are plenty of richer men, although Edison has a handsome fortune, but he has given the world some wonderful inventions, and that is a part of success: the work done as well as the compensation. Possibly the studies in pure science will take the place of his accustomed efforts, but while clearly entitled to a rest, it is sure that Edison has the work habit too strong to make much of a success as a loafer.

### Deserting Democratic Party.

Tom Rigg, who left the democratic party to reform the republican party, is much pleased over the success of Stubbs and Bristow, whom he supported. He says he coaxed at least a dozen democrats to follow him into the republican party. Five men working on his farm were given an hour off in which to vote at the primaries. Two of them were democrats, and three republicans. He also believes that Jim Trimble, of Atchison, has also put on his blanket and left the democratic reservation.—Atchison Globe.

Feel languid, weak, run-down? Headache? Stomach "off"?—Just a plain case of lazy liver. Burdock Blood Bitters tones liver and stomach, promotes digestion, purifies the blood.

### Taft Not Responsible for Discharge of Negro Soldiers.

President Roosevelt, in a statement issued late last night, made it clear that the entire responsibility for the original order discharging the battalion of negro soldiers for alleged participation in the Brownsville, Texas, rioting, and the refusal to permit a suspension of that order, was his. The president was shown the Washington interview with Gen. Henry C. Corbin, U. S. A., in which General Corbin said that no credit or blame in the matter rested with Mr. Taft. After reading the interview the president gave out the following: "General Corbin's statement is absolutely correct, and it was entirely proper that he should make it. The substance of the message from the president, which he quoted, was made public long ago. In the Brownsville matter the entire responsibility for issuing the original order and for declining to allow its suspension was the president's." In his interview General Corbin said, in substance, that Mr. Taft was in no way responsible for the order discharging the battalion of the 25th infantry, and that in doing so the then secretary of war obeyed the direct order of the president. General Corbin then recounted the circumstances of the discharge.

### FOATING.

The author of this poem, after many years of eminent professional success, was obliged, through illness, to give up all activities and lead a quiet life. Faintly as tolls the evening chime Our voices keep tune and our oars keep time. Row brothers! row! The stream runs fast; The rapids are near, and the daylight's past.

—Canadian Boat Song.

Yes, brothers! row! row each his boat! I row no more; I only float; The stream, which long has been my road, On which I hurried as it flowed, And where the busy oar I plied Or shaped my course from side to side, Still strongly bears my failing boat—I row no more; I only float. I see the stream more swiftly run Than when its course was first begun; The rapids' boding voice I hear Still drawing nearer and more near: The noontide brilliance all is past—Eastward the shadows long are cast—But I no longer row my boat, Or try to row—I only float; Yet still find round me, none the less, Abundant cause for thankfulness.

O Lord! Send thou thy peace to be Still a companion unto me, That I may have no shade of fear Of unknown rapids drawing near: That I may hear the distant chime Of bells beyond the walls of Time; That I may feel my failing boat Still in thy guidance as I float, Till I shall reach the tideless sea, The Ocean of Eternity! —Robert Dewey Benedict, in National Magazine.

### WOMEN'S WOES.

#### Jackson Women Are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidneys cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know. Mrs. C. Williams, living on Pitt street, Jackson, Cal., says: "I have used Doan's Kidney Pills and am glad to say that they act as represented. When I commenced their use, I was in a very bad way as the result from kidney trouble. Doan's Kidney Pills were brought to my attention, I procured a box at the City Pharmacy and began their use. My kidneys are now in fine condition and I feel better in every way." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and taken no other.

#### Chronic Diarrhoea Relieved.

Mr. Edward E. Henry, with the United States Express Co., Chicago, writes, "Our general superintendent, Mr. Quick, handed me a bottle of Chamberlain's colic, cholera and diarrhoea remedy some time ago to check an attack of the old chronic diarrhoea. I have used it since that time and cured many on our trains who have been sick. I am an old soldier who served with Rutherford B. Hayes and William McKinley four years in the 23rd Ohio Regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once." For sale by Jackson's drug store, Spagnoli, prop.

## Humor

### A GENTLE COLT.

And What Happened to the Man Who Bought It.

"Whoa!" was the simultaneous exclamation of the two old Brownstown farmers as they met on the road and pulled up for a little chat.

"Goin' on past Sim Jones' place?" asked one of them after they had disposed of the weather and their families.

"Yep; I'm goin' a couple o' miles beyond him. Why?"

"Say," after a prolonged chuckle, "when you git front o' his place walk the hosses. If Sim don't show up, jest let on suthin has gone wrong with the wagon and go in and borrow a wrench or a hammer. It's worth walkin' half a day to see Sim. Jimminy, but he's a sight!"

"Bee stings or what?"

"I hain't sayin' a word, only see him. That's all. Mornin'. Git ep!"

As good luck would have it, Sim was limping up and down in front of his place, and no strategy had to be used in getting sight of him. There was a towel about his head, he had but one eye in commission, and it was two-thirds closed, his hair was cut out in blotches to accommodate an adhesive plaster, and he could just manage to locomote with a crutch and a cane.

"Hello, Sim!" shouted the man from the wagon. "Keers run over you?"

"No; the keers didn't run over me. Durned cur'us how much people wanter find out when they come 'long here. But I hain't makin' no grumble 'bout you, Abe, 'cause you and me allus been friends. I know I look jest 's though I'd been sawed and split and pilled up. Did you see that feller round here las' week peddlin' a pop eyed black colt 'thout a white hair on 'im?"

"Yaas; stopped at my place and stumped me fur a dicker."

"Well, you'll never see him ag'in, Abe, if I see him first. He tole me positive that colt was gentle as a kitten, and I bought him. That night I rode him inter the woods to look fur the cows, and when they found me 'bout midnight I was a blamed sight worse'n I am now. Ef you ever see that cuss, Abe, git me word of it costs a dollar."—Detroit Free Press.

### Just Like a Girl.

The Friend—Do you think she will keep her engagement a secret? The Envious One—Well I should say not! The Friend—Well, she received the gold band last night. The Envious One—Indeed! Well, it is a wonder she don't hire a brass band to announce it today.—Denver News-Times.

### Dusty's Kick.

"Dese automobiles are a nuisance," growled Dusty Dennis as he frowned at a passing touring car. "What's de matter, pard?" asked Gritty George. "One of dem run you down?" "No, but last night dey put me in a cell wid a chauffeur, and I couldn't sleep for de smell of gasoline."—Chicago News.

### Self Accusing.

"I don't believe you know much about farming," said the patronizing man who had just settled in the neighborhood. "No," answered Mr. Cornstossel; "I kind o' think I don't myself. A man that knew much about farming would not have bought a farm anywhere around here in the first place."—Washington Star.

### What Was Lacking.

Tom—When are you going to wed your pretty fiancée? Dick (gloomily)—Indeed I do not know. Tom—But the report is gaining currency. Dick—Yes, but I am not gaining currency. That is just the trouble.—Chicago News.

### All About Her.

Winkle—See that little woman in black over there? I'll bet there are more men crazy about that woman than any woman in town. Hinkle—What makes you think so? Winkle—Well, she's the matron out at the insane asylum.—Judge.

### How It Affected Him.

Monk (the caddy)—Ever since Leo ate that Gordon highlander he won't do anything but play golf.

### Unlike Some Married Men.

"It must be forlorn for a bachelor when he falls ill." "That's so. No one to take in boarders for him."—Browning's Magazine.

### Making Good.

There is no way of making lasting friends like "Making Good;" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve it is unequalled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much imitated but never equalled.

### AN OLD SONG.

Forty-six years ago the last week in June eighteen northern governors united in requesting President Lincoln to make a call for such additional troops as would supply all the losses of the war up to that time from death, disability, discharge, desertion and all other causes. In response to this the president made his famous call for 300,000 volunteers. The call inspired a New York banker, James Sloan Gibbons, to write a song that proved a pillar of fire to the North and a source of depression and dismay to the forces in rebellion. Here is the first stanza of the famous song:

If you look all up our valleys, where the growing harvests shine, You may see our sturdy farmers' boys fast forming into line; And the children at their mothers' knees are pulling at the weeds, And learning how to reap and sow against their country's needs. And a farewell group stands weeping now at every cottage door— We are coming, Father Abraham, three hundred thousand more.

### Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by Jackson's drug store, Spagnoli, prop.

### Special Small Ads.

Advertisements under this head, not exceeding 5 lines, will be inserted at 50c per month, or 5 cents per line for less than one month.

## SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

**Cold Storage Effectiveness**—The Upper Air Not Sterile—Danger in Ozone—What is It?—Lighted by Darkness—Artificial Fulgurites—A Non-Spinning Hoisting Rope—Britain's New Breakfast Food—Dutch Rubber.

How long it is possible to keep meats in a frozen state is unknown, but in chemical and microscopical examinations of beef and poultry W. D. Richardson has detected no alteration after a year and a half. As muscular tissue cools to just above 30 deg. F., the water separates as ice, contracting the fibers, and forming an armor that it is impossible for bacteria to penetrate. The solution remaining in the fiber becomes very concentrated, so that bacteria already present cannot multiply or remain active; and it is almost certain—though not absolutely proven for all cases—that all germs artificially introduced into frozen meats must lose their vitality and die. Muscular tissue returns to its normal appearance when thawed sufficiently slowly, though the meats must look changed if the thawing is rapid.

That germs are not absent from the upper air, as has been supposed, has been proven by Dr. Flemming, of the German army. In his balloon observations he has found an abundant microscopic life as high as two miles and a half, and noticed little falling off from the surface up to 1600 feet, the organisms averaging 365 per cubic foot, while from 1600 to 13,000 feet the average was 10.5 per cubic foot. Duration of sunshine affected the number of germs, though rain and snow showed no influence. The highest species secrete pigment, this being probably protection against ultra-violet rays, like skin darkening on high mountains.

As pure ozone for disinfection is likely soon to be produced in the home, Sir Oliver Lodge gives warning that it should only be inhaled when properly diluted. It is a powerful corrosive, and he suffered from nasal catarrh for years as a result of its incautious inhalation.

A mysterious new power, called "nerve force" for lack of a better name, seems to be puzzling French psychologists. The latest of the devices by which it is shown, the biometer, comprises a closed glass cylinder diameter in which a three-inch copper needle is suspended by a single cotton fiber, while a horizontal degree-card just beneath is supported on a 2-inch bobbin wrapped with alternate layers of blotting paper and fine wire. The bobbin rests on the wooden stand. When either hand is held for 3 to 5 minutes within an inch of the cylinder—no other disturbing influence being near—the needle is deflected 20 deg. to 60 deg., but returns to the original point after a short period. Light, darkness, heat, cold, noise and quiet seem to have no influence. The average deflection in health is 42 degrees; for the right hand and 31 degrees for the left, but sickness lessens the effect by degrees to the vanishing point, the left hand giving greatest variation. Neither heat nor electricity can be the cause of what appears to be the action of some real force.

A curious and impressive experiment, suggestive of ancient black art, is given in a new work by Dr. Gustave Le Bon. Calcium sulphide paint is applied to a statuette, which is next freed from all traces of visible phosphorescence by several days in absolute darkness, and is then exposed to the dark infra-red rays from a lamp completely hidden in an opaque box. Though untouched by visible rays, the mixture of darkness with darkness causes the image to flash up almost instantly and glow brightly. This is almost the converse of Fresnel's experiment of adding light to light to produce darkness through the phenomena of interference.

The glass tubes formed by lighting striking in sand—half an inch or more in diameter and sometimes 27 feet long—have been feebly imitated by powerful electric currents discharged through powdered glass. Compared with Nature's product, the tiny pipes, of darling-needle size and less than an inch long, suggest the tremendous energy of lightning.

Ordinary ropes tend to rotate or spin when hoisting heavy loads, and a non-spinning rope, designed to overcome this troublesome and dangerous tendency, has been lately patented. In this new rope an inner series of wire strands is wound in one direction over a core, while an outer series is wound in the opposite direction on the inner series as a core. The wires of each of the individual inner strands are twisted in the same direction as the lay of the

strands, but in the outer layer the twist is opposite to the lay of the strands. This arrangement gives the inner strands a tendency to untwist faster than the outer ones, which is offset by the larger number of the outer wires. In practice the two opposite untwisting actions almost perfectly balance each other. One of the cables has been put to severe test in a Vermont marble quarry, and has raised a block of stone 250 feet with only a half-turn of the load, no guide rope being used.

Penguin eggs are a novelty in the London dietary. These eggs are collected on islands off the west coast of Cape Colony, where the birds breed in vast numbers, and are shipped to England in cold storage, being about three weeks on the way. In South Africa the eggs are eaten for breakfast, after being cooked at least twenty minutes, and seasoned with pepper, butter and salt. The white has no particular flavor, but a slight fishiness detected by some in the yolk has suggested that the best use would be for egg sauce or prepared in a mayonnaise.

Licouite, made in Holland, is a new material resembling rubber. It is a mixture of bitumen and various oils, without rubber or gutta-percha, is elastic and tough, and is claimed to be unaffected by water, dilute acids and alkalis, and neither flows nor cracks in ordinary temperatures.

The bats that have for many years past infested the Oak street schoolhouse in Red Bluff, will be exterminated by W. J. Cooper, who has the contract from the school trustees to wage war on the bodes until there be no bats left. The stench from the myriads of dead bats that lie in the walls of the schoolhouse is unbearable. Cooper says that he has already killed 5000 bats and that there may be a million left. Disinfecting candles and a mixture of lime, salt and concentrated lye are used in the way of extermination, and so far with a fair degree of success.

## Disagreeable at Home.

Lots of men and women who are agreeable with others, get "cranky" at home. Its not disposition, its the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by Ruber's City Pharmacy.

**Do You Suffer From Sick Headache?**  
"Live the Liver."  
In a majority of cases a bad liver means a bad head. Fix the liver and you fix the head.

**SCHENCK'S MANDRAKE PILLS**  
Plain or Sugar Coated.  
For all the ailments resulting from the liver. They are a sure, permanent relief for Indigestion, Constipation, Nausea, Heartburn, Flatulency, Giddiness, Malaria, Jaundice, etc.

**Guaranteed all Vegetable. Absolutely Harmless.**  
In use for Seventy Years.  
For Sale Everywhere. 25 cents a box or by mail. *Patented.*  
Dr. J. H. Schenck & Son, Pa.

34th STOCKTON, Cal.

## SHORT STORIES.

Red haired persons are usually impulsive and outspoken.

The estate of David Valentine has been settled at Fall River, Mass., after having been in the courts 102 years.

A building in Calais, Me., now used as a moving picture theater and formerly as a prize fighting arena was originally a church.

Elmer Barnard of Orlando, Me., captured a sturgeon nine feet long, weighing 400 pounds, in his weir recently. It is said to be the first sturgeon taken in the Penobscot in ten years.

A cane has been presented to the governor of Virginia that is a souvenir of two battlefields. The cane is of hickory and was cut from the famous field of Chancellorsville, and the handle is a deer foot, the animal being killed in the Wilderness.

The most remarkable oil field in the world is at Summerland, Cal., which is really in the sea and where oil is pumped from beneath the surf. There are now about 200 producing wells there, and they average about five barrels of oil a day.

## Stolen Bases.

Infielder Shaefer of the Detroit is unquestionably the greatest comedian today among ball players.

This is Frank Chance's tenth year in baseball. In all of this time Chance has remained a member of the Chicago Nationals.

Walter Manning of the New York Americans seems to have the right stuff in him to make a success of the big league pitching job.

Pitcher Campbell of the Cincinnati Reds has no love for St. Louis. He says his turnaround by that club in 1905 put him back three years in his advancement in the profession.

When a pitcher gets as old as Cy Young one does not expect him to spring anything new on the batters, but it is claimed Cy is using more curve balls this year than he ever did.

## German Gleanings.

One of the large electrical firms in Germany gives yearly from \$4 to \$7 to employees who have served for more than a year. The sum thus expended exceeds \$110,000 a year.

The table linen of the Prussian royal family and likewise of the reigning houses of Baden, Saxony, Bavaria and Wurttemberg is made at one particular factory devoted to the purpose at Bielefeld.

A new German law provides that the German language shall be used at all public meetings in all parts of the empire. This is part of the systematic effort to bring about the Germanization of Alsace, German Poland and the Danish districts of Schleswig-Holstein. The number of people affected is about 4,500,000.

## Flippant Flings.

Then, too, those Lamentations of Job were written long before anybody ever struck out with the bases full.—Atlanta Journal.

Jupiter's eighth satellite has just been discovered, and just to think how long and how nicely we got along without it!—Lorain (O.) Times-Herald.

The short and simple annals of the poor in Georgia now read "jug, jig, jag, juggled," and prohibition goes marching on.—Louisville Courier-Journal.

Brag about your "Merry Widows" all you want to, but you just ought to see some of the contraptions men wear on their heads in lodge rooms.—Galveston News.

## Flower and Tree.

An orange tree will continue to bear fruit until it is 150 years old.

The leaf of the coconut tree is nearly thirty feet long, while a single leaf of the parasol magnolia of Ceylon will shelter fifteen or twenty persons.

The Inaj palm is the tree which is distinguished for having the largest leaves. They often reach a length of fifty feet and are from ten to twelve feet in width.

If you wish flower cuttings to bloom while the plants are small put them in small crocks. As soon as the crocks are filled with roots they begin blooming, especially geraniums.

## Facts From France.

The Paris prefect of police has decided that in future no more licenses to play barrel organs in that city will be granted.

Twelve couples have just celebrate their golden weddings at Abrest, small town near Vichy, France. Three hundred descendants were present in church.

A project is being considered for transference of the Jardin des Plant to a site three miles outside Paris where it is intended to create a "logical oasis" in which the animal can have comparative liberty.

## Pith and Point.

No one expects that his grave will be neglected.

Too many men honor women and abuse their wives.

None of the things described as "heavenly" is to be found in heaven.

A great many people who require "references" should give them instead. Few men are ruined by great offenses, but most men are sufferers from the effects of petty folly.

Every man who takes a part in your procession expects that some day you will blow a horn in his procession.—Atchison Globe.

## LOCAL EDITORIAL COLUMN.

## FOR THE ASSEMBLY.

We have mentioned before that E. B. Moore of Copperopolis, Calaveras county, and formerly a supervisor of Amador county, representing the fourth district, was spoken of as a probable candidate for assemblyman for the eleventh district, comprising the counties of Amador, Calaveras, Alpine and Mono. At that time it was merely a matter of discussion in republican circles in the home county of the probable candidate, and in that way became a matter of newspaper mention. Mr Moore personally had made no effort in that direction; and was in no sense a seeker after the offices. But his friends, believing in his availability and his strength before the people, were urging him to take the candidacy. The Ledger is now in a position to state definitely that Mr Moore has decided to accept the nomination if tendered him. And of course it will be tendered him without a dissenting voice so far as Amador is concerned. It is conceded that the candidate for the assembly should come from Calaveras county. Amador has furnished the state senator, who represents the same territory with the addition of El Dorado county. It would be against precedent and contrary to good policy for the assembly candidate to be taken from the same county as the senator. The nomination being conceded to our sister county, it follows as a logical sequence that the republicans of that county should have the naming of the nominee, for they are presumed to be better posted concerning the political strength of their citizens than the outsider. In the case of Mr Moore the people of Amador are almost as well acquainted with him as the residents of his own county. He has lived among them for years, has served them faithfully in a public capacity, and commands the esteem of all. There is no question about his making a winning run. On the democratic side, no one has been mentioned for this office so far. Indeed, it is hinted that if Moore is nominated by the republicans, the democrats are likely to let it go by default. This is mere talk. They will not do so if they can persuade any man to make the run, or at least consent to have his name go on the ticket.

The clique of politicians opposed to senator Perkins are seeking to accomplish his defeat for reelection to the highest office within the gift of the state by trotting out a number of aspirants. Sam Shortridge, Victor Metcalf, Hayes of San Jose, and several others are being boomed for this high position. The object is to divide the republican forces, and prevent the election of Perkins, finally compelling the members to compromise on some other candidate. It is anything to beat Perkins with this coterie of schemers. They know that Perkins is the choice of three-fourths of republicans throughout the state. But what care they for the popular demand, when it conflicts with their personal ends. We do not believe the sorehead combination will succeed in this attempt to divert support from Perkins, who has proved one of the ablest and most influential representatives ever sent to the United States senate from the Pacific coast.

## FOR A NON-PARTISAN JUDICIARY.

The republican convention of San Joaquin county, moved by a laudable desire to lift the judiciary out of the mire of party politics, nominated one republican and one democrat for the two superior judgeships of that county. Whether this will accomplish much as a reform step remains to be seen. One step further should be taken, namely, to prohibit judges themselves from mixing up in party politics. There are no more hidebound partisans to be found in the state than some of the occupants of the bench. They use all the influence of their position to further the interests of the party to which they belong, pulling wires and making partisan harangues not merely on national issues, but to aid candidates for local offices. In this way judges themselves are largely responsible for keeping the judiciary in the muddled pool of party politics. They should lead, not follow, the reform by keeping their hands off.

W. ROSS

FASHIONABLE TAILOR

Finest Stock of Woolens and Fabrics ever brought to Jackson

First-class Workmanship Guaranteed.

Mr Ross has also, at great expense, learned the business of Cleaning, Pressing and Dyeing, and is prepared for cleaning of Suits, Silks, Satins, etc. Hats cleaned and blocked by most improved method, not commonly used by Tailors.

Phone, Black 331

## Brevities

## THE HALL OF FAME.

Perhaps the two best friends in Sutton, N. H., are David Hart and G. S. Morgan. The former is ninety-one years old and the latter ninety-three.

The pioneer of Berks county (Pa.) acquires is William Y. Shearer, who has conducted the office of justice of the peace ever since 1864, holding the office for forty-four years, and his ninth commission will expire next year.

Although his famous silver mine has yielded him \$18,000,000, Pedro Alvarado, the "Mexican Croesus," has been so extravagant that he has run into debt and has been constrained to lease his property for fifteen years to an American syndicate.

To his collection of more than 800 relics Captain John Ryan of West Newton, Mass., a veteran of several wars, has added a cane the materials of which represent three wars in which he participated—the Mexican, civil and Spanish-American wars.

Sixty years ago Hiram C. Matthews of Derry, N. H., was given a letter of recommendation by several of the merchants of Hyde Park, Vt. Although he has never had occasion to use the letter, at the age of ninety-one Mr. Matthews treasures it as a keepsake.

Because Claude Trent of Princeton, Mo., serving on the dispatch boat Yankton, weighs 215 pounds he is unable to get inside the ship's boilers to clean them and do other jobs required of a bluejacket. He therefore has an easier time than the other men.

Chief Justice Fuller celebrated his seventy-fifth birthday last February. He took the oath of office Oct. 8, 1888, so that before the next presidential election he will have rounded out an honorable service of twenty years as chief justice of the supreme court.

Baron Speck von Sternburg, the German ambassador, has gone to Europe. Baroness von Sternburg accompanied him. Previous to his return to Washington, which will be the latter part of September, the ambassador will spend a short time in Scotland as a guest of Andrew Carnegie.

## Modes of the Moment.

Taffeta hems are noticed upon the sleeves of the new white net waists.

The French touch of pink is observable upon many gowns, and the pink panne velvets are used for waist trimmings.

It is a noticeable feature of the summer dresses that many of them have the deep taffeta hem which may or may not match the gown.

A bow of velvet of a contrasting color is a feature of many of the new gowns. The bow is placed just at the front of the yoke so that the ends fall upon the waist.

Drop skirts are necessary to the thin summer dresses. They are made and sewed to the skirt so that there is no danger of the drop being longer or shorter than the dress skirt.—Brooklyn Eagle.

## Home Notes.

Never use on the face a wash rag which is not scalded each day.

To prevent sandwiches from drying when they have to be kept for a time wrap them in paraffin paper and then pack in a tin box.

Cut sheets of tin foil and place under the flower vase dollies, and you will have no trouble with any dampness affecting the best polished furniture.

Hang your broom in the cellarway when not in use, and it will keep soft and pliant and wear much longer than when kept in the dry air of the kitchen.

Equal parts of turpentine and ammonia will take paint out of clothing even if hard and dry. Saturate the spot as often as necessary and wash off with warm soapy water.

## English Etchings.

Previous to 1834 the house of commons was lighted by candles, which were affixed to massive chandeliers.

To the long list of London clubs there must now be added the Poets' club, which has been formed for the purpose of revivifying the neglected art of versemaking.

A manuscript sold in London the other day had the interest of curiosity. It was that of a tale written by the father of Robert Browning and entitled "The Widow of the Wood."

The cost of maintaining English roads has risen in recent years out of all proportion to the increase of population, owing chiefly to the enormous increase of the traffic. On the Nottingham roads there are now ten vehicles where there was one twelve years ago.

## Plays and Players.

"Strongheart" is now being used in the stock companies.

John C. Rice and Sally Cohen will star in a new farce called "Just Like a Man."

The revival of "The Pride of Jenico," which James K. Hackett made this season, has been most successful.

Marie Doro has achieved a decided success in London. Both personally and professionally she is exceedingly popular.

Felice Morris, the daughter of the late Felix Morris, will appear in vaudeville in a one act comedy called "The Old, Old Story."

## Railroad Time Schedule Changed.

Commencing tomorrow morning the stage will leave Jackson for Martells at 8 o'clock instead of 7:30, as heretofore. The train will reach Martells in the afternoon on the return trip at 4:30 instead of 5 o'clock. The impression is that this change of time is made as an offset to the proposed automobile line from Jackson to Sacramento. Under the new train schedule passengers for the capital city will go right through, instead of waiting three hours as heretofore at Galt. In this way the trip from the mineral belt to Sacramento can be made in from three to four hours, about the same as the auto line.

The official time of the leaving of the stages and trains is as follows:

Jackson, 8:05 a. m.  
Amador City, 7 a. m.  
Sutter Creek, 7:50 a. m.  
Martells, 8:40 a. m.  
Ione, 9:50 a. m.

This train will carry passengers only.

The freight train leaves Martells at 1:20, and Ione for Galt at 3:45.
